主席報告 - Chairman's Report

自1982年《吸煙（公眾衛生）條例》生效以來，控煙工作已經在本港展開近30年，秉承一貫宗旨，委員會於過去一年透過不同工作滲入社會各個層面，宣揚煙草的禍害，鼓勵吸煙人士戒煙，並積極向政府提供專業意見，致力捍衛公眾健康，與政府及各界市民攜手共創無煙香港。

Tobacco control has commenced for almost 30 years in Hong Kong since the Smoking (Public Health) Ordinance became effective in 1982. In accordance with our long-held principle, COSH has infiltrated into different sectors of our society through multifarious measures. We publicized the hazards of tobacco and encouraged smokers to quit smoking. What is more, we provided professional advices to the Government actively in order to safeguard the public health. A smoke-free Hong Kong will definitely be created with the support from the Government and the public.

隨著2009年禁煙範圍的擴展及2011年煙草稅的增加，香港的控煙工作進入了一個新的里程碑，香港現時是全球吸煙率最低的地區之一，是市民大眾共同努力的成果。

根據統計處2010年最新數字顯示，香港每日吸煙人數佔全港15歲及以上人口的11.1%，是有紀錄以來最低，尤其以男性吸煙比率下降的幅度最為顯著，由八十年代初近40%下降至現時的19.9%，可見歷年來的控煙措施包括擴大禁煙範圍及煙草稅調整均取得成效，市民的支持為建立無煙香港創造了良好的社會環境及氣氛，大大加強委員會推行控煙工作的信心。

Along with the smoking ban expansion in 2009 and the tobacco tax raised in 2011, the mission on tobacco control in Hong Kong has stepped into a new journey. Currently, Hong Kong is one of the regions with the lowest smoking rate among the world. The victory ought to be, with no doubt, accredited to the public.

According to the latest figures from the Census and Statistics Department in 2010, the prevalence of the daily smokers aged 15 or above was 11.1%, which is the lowest on record. In particular, the ratio dropped significantly among male smoker segment, which decreased to 19.9% from 40% in early 80s. It is a proof of the achievements of the measures we have adopted throughout the years, including the smoking ban expansion and tobacco tax adjustment. With the support from the public, a favourable social environment and atmosphere for building a smoke-free Hong Kong has been created, which greatly enhances our confidence to carry out measures on tobacco control.

為了更有效推動吸煙人士戒煙及宣揚無煙信息，委員會針對不同界別人士展開一連串工作及活動。其中，透過企業推廣無煙文化是2011年的工作重點之一，藉著舉辦《香港無煙領先企業大獎》，上下一心共建無煙工作環境。香港勞動人口超過350萬，大部份僱員每日逗留在工作間的時間長達八至十小時，根據2004年及2006年舉辦推動無煙工作間獎項的經驗，透過企業鼓勵及支援員工加入戒煙行列，成效非常顯著。今年《香港無煙領先企業大獎》成功吸引超過200間企業及機構踴躍參與，有關措施包括於工作間提供戒煙支援及健康資訊、舉辦健康教育講座及設立無煙支援小組等等，超過52,000名員工受惠於是次活動。

經過評審團的嚴格評核，共有15間企業獲發領先大獎，另有15間獲頒發卓越優異獎及181間獲發優異獎，以嘉許他們提供健康工作環境及推廣無煙社會。委員會早於九十年代，已邀請本港各大小企業一起制訂及推廣「無煙工作間政策」，對於多年來參與的企業及機構主動肩負社會責任深表欣賞。

委員會深信企業宣傳的重要性，同時亦了解社區推廣是不可或缺的一環，故早於2009年開始推出《戒煙大贏家》比賽，把宣傳教育滲入社區層面，2010年於各地區設立招募攤位，得到區內人士的熱烈參與，兩年比賽成功招募超過2,000名吸煙人士參加，亦印證了社區支持對控

In order to lend more thrust to smokers to quit smoking and to publicize the smoke-free message, COSH commenced a set of functions and activities which targeted at different people. Among all, the focal point in 2011 was the smoke-free culture publicity campaign among enterprises. Through the “Hong Kong Smoke-free Leading Company Awards”, a smoke-free environment was created, for sure, with the efforts from employers and employees. The labour force in Hong Kong has more than 3.5 million people, and most of the employees spend 8 to 10 hours daily in their workplaces. According to the experiences of launching smoke-free awards in 2004 and 2006, with the encouragement and support of enterprises for employees to quit smoking, the publicity of smoke-free culture in workplace achieved remarkable success. This year, the “Hong Kong Smoke-free Leading Company Awards” attracted more than 200 corporates and organizations to participate enthusiastically, the measures consisted of providing smoking cessation support and health information in workplace, launching health talks and establishing smoke-free support team and so on. 52,000 employees were benefited from the campaign.

After a stringent assessment conducted by the Judging Panel, a total of 15 companies were selected to receive the Grand Awards, while another 15 companies received the Certificates of Merit with Special Recognition and 181 companies received the Certificates of Merit. The awards were a recognition of their efforts in providing a healthy working environment and the publicity of a smoke-free society. In early 90s, COSH had already invited local SMEs to formulate and promote the “Smoke-free workplace policy”. COSH commends the enterprises and institutions which actively enhance social responsibilities throughout the years.

COSH believes in the importance of publicity through enterprises, while promotion in community is also our right-hand. Thus, COSH has implemented the “Quit to Win” smoking cessation contest as early as 2009, in order to penetrate the work of publicity and education into the community. In 2010, we set up recruitment booths in different districts and received hot responses and great support from local residents. It is a great success that we have recruited over 2,000 smokers to participate in the campaign in the two years of competition, which was also an irrefutable evidence

煙工作的重要性。2011年委員會再接再厲，並與地區組織合作，分別於葵青、觀塘、西貢、荃灣、灣仔及黃大仙六個區域舉辦《無煙社區推廣計劃2011-12》，配合各區特色，舉行講座、展覽、嘉年華會、教育營等為期一年的宣傳及戒煙支援推廣活動，向市民傳遞煙草禍害的信息。

世界衛生組織（世衛）早於2005年制定《煙草框架公約》以應對煙草於全球流行，並促進公共衛生，2011年的世界無煙日以《煙草框架公約》作主題，再次提醒全球各國履行公約的義務，減低對煙草的需求，保護市民免於煙草的禍害。

為了響應世界無煙日，委員會推出《無煙少年獎勵計劃》，邀請各區兒童及青少年參加，把無煙資訊傳播予家庭成員，並於2011年5月29日舉行誓師儀式。

計劃以「無煙少年我出力撐」作口號，借助家人的支持為戒煙人士提供動力，招募幼稚園至初中生成為無煙小先鋒，透過有趣的活動教育新一代有關吸煙的害處及戒煙的重要性，並鼓勵他們把正面信息傳遞至親友，勸喻家人戒煙。活動吸引超過13,000名學童參與，並收集了近80,000個簽名承諾支持建立無煙家庭，其中最特別的是由一眾無煙小先鋒分享如何支持及鼓勵家人成功戒煙的個案，當中的動人情節印證家人鼓勵對於戒煙有顯著的成效。

of how important community support is to tobacco control. To carry on, COSH cooperated with organizations in six districts in 2011, which included Kwai Tsing, Kwun Tong, Sai Kung, Tsuen Wan, Wanchai and Wong Tai Sin, to launch the Smoke-free Community Promotion Campaign 2011-12. Matching up with the local features, we organized activities such as talks, exhibitions, carnivals and training camps, to promote and provide support for smoking cessation. These activities lasted for a year, and through which, we disclosed the hazards that tobacco caused to the public.

The World Health Organization (WHO) has promulgated the “Framework Convention on Tobacco” in 2005, which is to cope with the spread of tobacco around the world and to promote public health. The World No Tobacco Day in 2011 was themed with “Framework Convention on Tobacco”, which was another reminder for countries to perform their obligations under the convention. Moreover, they should reduce the demand on tobacco in order to protect the health of people away from tobacco hazards.

In response to the World No Tobacco Day, COSH has implemented the “Smoke-free Homes and Smoke-free Teens Campaign” to invite children and teenagers from different districts to deliver the smoke-free message to their family members. The Mass Pledge ceremony was held on 29 May 2011.

The slogan of the campaign was “Smoke-free Teens, I support you”. Relying on the motive force from family members, we recruited students from kindergartens to junior secondary schools to be the Smoke-free Teens. Through a bunch of fascinating activities, we educated the new generation on the hazards of smoking as well as the importance of smoking cessation. Moreover, we advocated them to bring these positive messages to their family members and friends and persuade smokers to quit smoking. The campaign has drawn the participation from 13,000 students, and we received 80,000 signatures from families that pledged to build a smoke-free family. The most impressive part of the campaign fell to the sharing from those Smoke-free Teens on how they helped their family members to quit smoking with their support and encouragement. All touching moments were the living examples for the effectiveness of encouragement from family members on smoking cessation.

除了宣傳推廣活動之外，委員會亦明白提高煙草稅是有效控制煙草使用的措施之一。政府於2009年大幅度增加煙稅50%後，青少年的吸煙人口顯著下降。因此委員會一直努力推動增加煙草稅，發動市民聯署向政府表達有關訴求，於2011年3月召集關注控煙的團體舉行《無煙香港·綠絲帶行動》，在政府總部外靜坐，與250名市民攜手支持增加煙草稅，並在6月16日進行草案投票當日，在立法會門外集會爭取議員投票支持增加煙草稅草案。2011-2012年度的財政預算案最後得到議員支持通過提高煙草稅41.5%，落實政府保障公眾健康的決心，2011年致電衛生署綜合戒煙熱線的人數亦因此大幅飆升，錄得193%的增幅。

提高煙稅是一項非常有效的控煙措施，特別是對價格敏感的年青人及較低收入的人士有正面作用，加強吸煙人士戒煙的決心。雖然香港的煙草稅在以往數年大幅度提升，然而現時的稅率仍有上調的空間，委員會將繼續努力向政府提出建議，期望香港有機會達到煙稅佔捲煙零售價70%的世界衛生組織建議水平。

Apart from the publicity campaigns, COSH also realized that the raise in tobacco tax is one of the effective measures on tobacco control. In 2009, the Government raised the tobacco tax significantly by 50%, which drove to a significant dive in the smoking prevalence among teenagers. Therefore, COSH has been working hard to advocate the increase in tobacco tax and collect signatures from the citizens to express public concern to the Government. On March 2011, groups advocating tobacco control were convened to launch the "Smoke-free Hong Kong Green Ribbon Action". 250 citizens were gathered to sit-in outside the Central Government Offices to support the raise in tobacco tax. Moreover, we held a rally outside the Legislative Council on 16 June to call on the members voting in favour of the draft of raising tobacco tax. Finally, in the Financial Budget 2011-2012, the draft of the 41.5% increase in tobacco tax was passed by the Council members, which materialized the determination of the Government in protecting the public health. In 2011, the calls to the Smoking Cessation Hotline of the Department of Health recorded a dramatic surge by 193%.

The raise in tobacco tax is an extremely efficacious measure on tobacco control, especially for teenagers who are price sensitive and people with low income. Through this measure, their decision for smoking cessation will be strengthened. The tobacco tax in Hong Kong showed a substantially increase in previous years, yet still, there are rooms for increase. COSH will keep proposing to the Government, and we expect the tobacco tax will account for 70% of retail-price of cigarette, which is the recommended level of World Health Organization.

環顧全球，國際控煙工作正準備掀開新一頁，澳洲預計在2012年12月推行「全煙害警示包裝」，擴大包裝上健康警示的百分比及限制煙包上的圖案、字款及標誌。委員會倡議香港仿效實行，規範煙包的設計以減低煙包包裝對青少年的吸引力，鼓勵吸煙人士戒煙。委員會未來將積極向公眾推廣全煙害警示包裝的必要性，以及研究有關法例在香港實施的可行性。與此同時，委員會亦關注現行法例的漏洞令煙草產品得以宣傳及推廣，並研究有關情況對青少年的影響，希望政府盡快修訂法例堵塞漏洞，以保障市民健康。

展望來年，縱然面對不少嚴峻的挑戰，委員會將一如既往緊守崗位，繼續全力宣揚無煙信息，爭取公眾支持「全煙害警示包裝」將會是其中一項重要的工作。另一方面，政府增撥資源加強戒煙服務，委員會來年會繼續推出不同類型的教育及宣傳計劃，鼓勵更多吸煙人士加入戒煙行列。

踏入二零一二年度，為香港控煙工作30周年，亦是本委員會成立25周年的銀禧紀念，本人希望藉此機會感謝委員會各委員的熱心參與和寶貴意見，以及向秘書處職員所付出的努力致以感謝。另外，對於多年來曾付出寶貴時間及努力，支持本港控煙工作的政府及公共機構、學術及教育組織、地區組織、社福機構、傳播媒介及社會上的不同持份者，本人謹此致謝！希望大家繼續攜手共創無煙香港！

The world's tobacco control has started a new page. Australia expects to implement the "Plain Packaging" in December 2012, that is, the ratio of the health warning on the packaging will be enlarged and restrictions will be set against the graphics, wordings and signs printed. COSH proposed that Hong Kong should follow suite. The design for the packaging of cigarettes will be standardized and the attraction to teenagers will be reduced, meanwhile, it can act as an encouragement for smokers to say no to tobacco. In future, COSH will work wholeheartedly in publicizing the necessity of Plain Packaging to the public, and conduct study on the feasibility to execute related regulations in Hong Kong. At the same time, COSH will put an eye on the loopholes of current legislations on promotion of tobacco products. Moreover, we will conduct research on the influences of tobacco promotion on teenagers. We hope that the Government will amend the legislations to plug the loopholes, as soon as possible, such that the health of the public will not be put at risk.

Looking ahead, it is no doubt that there are loads of barricades that we have to face, however, we will stick to our positions and pull out all the stops in publicizing the smoke-free message. Winning the support for "Plain packaging" will become one of the focal points of our work in the future. Besides, with the increase in Government funding in strengthening the services on smoking cessation, next year, the Council will implement different kinds of projects on education and publicity, such that more smokers will be encouraged to accede to the non-smoker group.

Stepping into 2012, the year that marks the 30th anniversary of tobacco control in Hong Kong and also the Silver Jubilee of COSH. I want to show the loftiest appreciation from my heart towards the enthusiasm and devotion, as well as the invaluable recommendations from the members of the Council. No one should forget the contributions from the staff of the Secretariat. In addition, I would like to express my sincere gratitude to the Government, public organizations, academic and education institutions, district and social welfare organizations, media and different stakeholders in community for their precious time and effort in supporting tobacco control in Hong Kong. We wish to see a smoke-free Hong Kong created by COSH, and YOU.

凝聚企業力量 攜手共建無煙香港 Uniting the Corporate Power, Building a Smoke-free Hong Kong

香港吸煙與健康委員會致力透過多元化的宣傳計劃，與政府、私營機構及社會各界攜手合作，將無煙信息滲透各階層。為鼓勵更多企業落實政府的無煙工作間政策，委員會於2011年舉辦「香港無煙領先企業大獎」，吸引超過二百間企業及機構參與，成功將無煙生活的重要信息傳達予五萬二千多名員工，一同建立無煙文化，為僱員、企業及社會帶來三贏局面，進一步向無煙香港的目標邁進。

Through a variety of publicity projects, the Hong Kong Council on Smoking and Health has devoted itself to link up the Government, private organizations, as well as the public to penetrate the smoke-free message into every sectors of our community. In order to encourage more and more enterprises to implement the Smoke-free Workplace Policy launched by the Government, the Council organized the "Hong Kong Smoke-free Leading Company Awards" in 2011. The campaign attracted more than 200 corporates and organizations to participate. The important message of smoke-free life was successfully delivered to more than 52,000 employees who will become a strong force to build smoke-free culture and brought the employees, enterprises and community a win-win-win situation. We have taken a great step towards our target, a smoke-free Hong Kong.

世衛倡保護人們免受煙草危害

世界衛生組織2011年的最新數字顯示，現時吸煙每年引致600萬人死亡，其中包括60萬人被二手煙所殺，預計2030年更會上升至每年800萬人，煙草的禍害實在不容忽視。

世界衛生組織（世衛）為了保護各國人民健康，並有效履行實施《煙草控制框架公約》的承諾，於2008年制定了六項有效的控煙措施－MPOWER，其中的「P－Protect」是保護人們免受煙草煙霧危害。所有人都有權呼吸清新的空氣，故各國均可訂立有效的法律，令所有公共場所（包括室內工作場所）全面禁煙，保護人們免受二手煙的危害，並有助吸煙人士戒煙。

擴大禁煙範圍至室內工作間

香港社會對無煙環境的渴求愈來愈殷切，故香港自1982年訂立《吸煙（公眾衛生）條例》^[1]後，政府已先後多次修訂有關控煙條例，擴大法定禁止吸煙區範圍，以保障市民大眾的健康。由2007年1月1日起，法定禁煙區範圍已擴大至室內工作間，在工作地方的室內區域，不論是自僱或受僱的工作地方，包括在工作時段之間用膳或休息時使用的地方，例如店舖、辦公室、工場或工作地方內的公眾地方都是禁止吸煙區。

WHO advocates to protect people from tobacco

According to the latest figure from the World Health Organization in 2011, smoking causes 6 million of deaths annually, among which, 600,000 persons are killed by second-hand-smoke. It is estimated that the figure will rise to 8 million yearly in 2030. No one should leave tobacco hazards aside.

In order to protect the health of people in different countries, as well as to meet their commitments under the WHO Framework Convention on Tobacco, the World Health Organization (WHO) released six measures to control the spread of tobacco in an effective way in 2008, the MPOWER. The “P-Protect” in the MPOWER stands for protecting people from tobacco smoke. All people have a right to inhale a breath of fresh air, and thus countries can implement effective legislation to completely ban smoking in public places (including indoor workplaces). The legislation not only protects people from second-hand smoking, but the smokers itself can also have a chance to quit smoking.

Extending the smoking ban to indoor workplaces

In order to fulfill the growing desire for a smoke-free environment from the community of Hong Kong, the Government has made numerous amendments to the “Smoking (Public Health) Ordinance”^[1] since such regulation was put in place in 1982. The statutory no smoking areas have been extended in order to protect the health of the citizens. With effect from 1 January 2007, statutory no smoking areas have been extended to cover indoor workplaces, indoor places in workplaces, regardless for the purpose of self-employed or being employed, including any part of the place that is set aside for use during any intervals for taking a meal or rest. Examples include shops, offices, workshops, or public areas in the workplaces.

禁煙範圍擴大，加上推行了其他控煙措施，香港的吸煙人口比率有下跌趨勢，但根據統計處主題性住戶統計調查第48號報告書，於2010年15歲及以上的每日吸煙人口比率為11.1%，即全港仍有逾65萬名吸煙人士，無數市民被煙草及二手煙損害健康。在香港，吸煙每年引致約5,700人死亡，被動吸煙每年引致約1,324人死亡，每年因吸煙引致生產力、醫療服務開支高達53億港元，故需要進一步有效地推廣控煙工作。

綜合世界衛生組織的建議、本港的控煙條例及吸煙趨勢，香港吸煙與健康委員會於2011年舉辦重點項目－以企業及僱員為目標的《香港無煙領先企業大獎》，鼓勵企業推廣無煙文化，創造舒適的工作環境，同時為員工提供戒煙支援平台。

As the smoking ban areas have been extended and with the help from other tobacco control measures, the smoking prevalence demonstrated a diving trend. However, according to the Thematic Household Survey Report No.48 prepared by the Census and Statistics Department, the prevalence of daily smokers aged 15 or above was 11.1% in 2010, which means there were over 650,000 smokers in Hong Kong and countless of citizens were harmed by tobacco and second-hand smoke. In Hong Kong, smoking causes approximately 5,700 deaths annually while, passive smoking causes about 1,324 deaths. The annual expenditure (on productivity and medical services) of smoking reaches HK\$5.3 billion. Therefore, further publicity on smoking control should be in force.

Taking into account the advices from the World Health Organization, the smoking ordinance and the smoking trend in Hong Kong, the Hong Kong Council on Smoking and Health organized a featuring campaign, which targeted enterprises and employees in 2011, the “Hong Kong Smoke-free Leading Company Awards”, to encourage enterprises to promote a smoke-free culture, and to create a decent and cosy working environment. Furthermore, it acted as a medium to support their employees to swear off tobacco.

凝聚企業力量

為保障市民健康，香港吸煙與健康委員會早於1992年開始，已邀請本港各企業一起制訂及推廣「無煙工作間政策」。於2004年及2006年先後推行《全港無煙工作間領先企業大獎》及《全港領先中小企無煙工作間大獎》，鼓勵企業自發推動無煙工作間，得到三百間企業和中小企踴躍參與。由此可見，不少企業早於法例訂立前已高瞻遠矚，緊貼控煙趨勢，支持無煙政策，建立可持續性發展的營商環境。

2011年委員會再接再厲，舉辦《香港無煙領先企業大獎》，獲得香港總商會全力支持。是次活動的啟動禮於2011年9月26日假香港會議展覽中心舉行，邀請香港各界大小企業積極宣揚無煙文化，在商界樹立榜樣。

出席支持的嘉賓包括獎項榮譽贊助人食物及衛生局局長周一嶽GBS太平紳士、支持機構香港總商會主席胡定旭GBS太平紳士、評審團成員衛生署署長林秉恩太平紳士、香港大學公共衛生學院院長林大慶教授太平紳士、亞洲金融集團總裁陳智思GBS太平紳士、清新健康人協會主席黃龍德BBS太平紳士，以及戒煙大使郭晉安。

Uniting the Corporate Power

In order to protect the public health, the Hong Kong Council on Smoking and Health has invited local corporates to formulate and promote the “Smoke-free workplace policy” since 1992. The Council launched the “Smoke-free Workplace Leading Company Awards” and the “Smoke-free Workplace Leading SME Company Awards” in 2004 and 2006 successively, with an aim to encouraging the business sector to set up smoke-free workplace voluntarily. The campaigns attracted more than 300 enterprises and SMEs to participate enthusiastically. This demonstrated that many enterprises had the foresight long before legislation was enacted to follow the trend of tobacco control, support the smoke-free policy and establish a sustainable business environment for long-term development.

COSH organized the “Hong Kong Smoke-free Leading Company Awards” again in 2011, and the Council obtained full support from the Hong Kong General Chamber of Commerce. The launch ceremony of the campaign was held at the Hong Kong Convention and Exhibition Centre on 26 September 2011. Enterprises and SMEs from different sectors were recommended to show their enthusiasm in promoting the smoke-free culture and to act as a role model in the industry.

The launching ceremony was officiated by the Honourable Patron Dr. York CHOW, GBS, JP (Secretary for Food and Health), representative of the supporting organization Dr. Anthony WU, GBS, JP (Chairman of Hong Kong General Chamber of Commerce), the member of the Judging Panel Dr. LAM Ping-yan, JP (Director of Health), Prof. LAM Tai-hing, JP (Director of School of Public Health, The University of Hong Kong), Mr. Bernard CHAN, GBS, JP (President of Asia Financial Holdings Ltd), Dr. Patrick WONG, BBS, JP (Chairman of Quit-Winners Club) and Smoking Cessation Ambassador Mr. KWOK Chun On.

委員會主席劉文文MH太平紳士表示：「自2007年室內公眾場所及工作間全面禁煙後，委員會便一直積極推動戒煙，今年舉辦《香港無煙領先企業大獎》，配合政府長遠的控煙政策，並會透過一連串的獎項及推廣活動，將無煙文化推廣至全港企業及僱員，鼓勵更多吸煙人士下定決心戒除煙癮，希望全港市民可以享受更多無煙空間。」

啟動禮後旋即展開為期2個月的招募過程，活動吸引全港超過二百多間來自各行各業的上市公司及中小企踴躍參與。來自委員會、商界、學術界和政府機構的獨立評審團，按參賽企業在「致力執行無煙工作間條例政策」、「倡導無煙文化為企業社會責任」、「為員工提供煙害及戒煙資訊」及「領先推動及支持員工戒煙」四大範疇的表現進行評審。經過初步評選、委員會秘書處實地視察及獨立評審團的嚴格評核後，大獎評審團於2012年1月選出15間企業奪得領先大獎，另有15間企業獲頒卓越優異獎和181間企業獲發優異獎（得獎名單見第116頁）。大獎頒獎典禮於2012年3月14日假香港會議展覽中心舉行，委員會頒發獎座予獲獎公司，表揚企業對推廣無煙文化的努力。

“After smoking was completely banned in public indoor areas and workplaces in 2007, COSH has been working actively on the promotion of smoking cessation. This year, COSH is organizing ‘Hong Kong Smoke-free Leading Company Awards’ in line with the long-term smoking control policy of the Government. We will also organize a series of award functions and publicities to promote smoke-free culture among businesses and their employees. It is also a chance to encourage more and more people to quit smoking without hesitation and we hope that Hongkongers can enjoy more smoke-free areas.” Ms. Lisa LAU, MH, JP, COSH Chairman said.

Immediately after the launch ceremony, a recruitment process for a period of 2 months started, the campaign attracted over 200s of Hong Kong listed companies and SMEs from all sorts of sectors to join. An independent Judging Panel, including representatives from COSH, the business sector, Government officials and academia, judged the performance of the participating enterprises based on four criteria: “Enforcing the Smoke-free Workplace Policy”, “Advocating smoke-free culture as corporate social responsibility”, “Providing information of smoking hazard and cessation for staff” and “Encouraging and supporting smoking cessation among staff”. After a series of preliminary assessments, site visits and judging process, the Judging Panel selected 15 companies to receive the Grand Awards in January 2012, while another 15 companies received the Certificates of Merit with Special Recognition and 181 companies received the Certificates of Merit (Please refer to P.116 for the Awards list). The Award Presentation Ceremony was held at the Hong Kong Convention and Exhibition Centre on 14 March 2012, awards were presented to the awardees by the Council to recognize their efforts in promoting the smoke-free culture.

大獎榮譽贊助人食物及衛生局局長周一嶽GBS太平紳士於頒獎典禮上表示：「企業肩負着社會責任，在《香港無煙領先企業大獎》中可看到不少企業不但落實政府無煙工作間的政策，更配合機構文化及員工所需，投入資源及構思許多既富創意又有效的方式傳達無煙信息，鼓勵及支援僱員加入戒煙的行列。透過這些饒具意義的活動，不單成功建立無煙工作間，亦可鼓勵員工戒煙，更可改善他們的健康及工作效率，對企業、員工及社會帶來三贏局面。」

領先企業的典範

是次得獎企業成功的經驗乃同業的典範，各獲獎公司配合行業特性、企業文化及員工所需，投入資源構思富創意且有效的宣傳策略。無煙文化不但得到管理層的支持，更獲得員工的認同及參與。

當中有獲獎公司自製短片，以輕鬆手法帶出吸煙禍害及對工作表現的影響；亦有機構推行戒煙計劃，分享員工的戒煙過程，讓同事擔當同行者，給予戒煙同事鼓勵與支援。而舉辦「無煙日」、設置無煙遊戲攤位及設計有品牌特色的禁煙標誌等，皆是獲獎企業推廣無煙文化的致勝之道。

其他宣傳方法包括舉辦無煙健康講座、於茶水間或員工休息室張貼海報及戒煙貼士、於內聯網設立無煙資訊平台及調查與跟進員工的吸煙習慣等等（詳細資料可參閱第32頁）。

Honourable Patron Dr. York CHOW, GBS, JP, Secretary for Food and Health also added, "What we observed through the 'Hong Kong Smoke-free Leading Company Awards' is many socially-responsible employers not only implement the smoke-free workplace policy of the Government, but also allocate resources to develop creative and effective approaches, which best suit their corporate culture and the needs of staff, to disseminate smoke-free messages among their workforce, encourage and support their staff to quit smoking. Besides establishing smoke-free workplace successfully, these meaningful functions have also encouraged employees to quit smoking and improve their health and work efficiency, which brings along a win-win-win situation amongst corporate, staff and the society."

The successful experience of the awardees is definitely a model for the industry. Each awardee, which acted in concert with the characteristics of its industry, the corporate culture and the needs of its employees, had put their efforts in mapping out creative and effective promotional strategies. The smoke-free culture not only had the support from the Management, it also gained the recognition and participation from the workforce.

僱員是企業的重要資產，提倡無煙文化，有助促進所有員工的健康及提高生產力，同時亦可提升企業競爭力，並能建立良好的企業形象，更可減低香港的吸煙人口，對企業、員工及社會均有好處。

總結

以上各得獎企業在推行無煙文化上樹立了一個良好的榜樣，對員工的健康、公司的生產力與形象及社會公眾健康均具正面影響，帶來三贏局面。香港吸煙與健康委員會深信，得獎的企業能夠透過與其他企業互相分享經驗，繼續身體力行，共建無煙香港。

繼往開來，委員會將繼續舉辦更多不同類型的控煙推廣活動，讓社會上不同界別的人士了解吸煙的禍害，同時鼓勵更多吸煙人士及早戒煙。

Employees are the important assets of an enterprise, advocating the smoke-free culture will help promote the health of its employees and enhance the productivity and the competitiveness. Meanwhile, a favourable corporate image can be built and the smoking prevalence can be reduced. Corporates, employees and community will all benefit from such efforts.

Conclusion

Each of the awardees stated above set up a supreme model in promoting the smoke-free culture in their own industry, which brought positive effects to the health of employees, the productivity of companies and the health of the public and resulted in a win-win-win situation. The Hong Kong Council on Smoking and Health strongly believes that the awardees will share their experiences with the industry and devote themselves in building up a smoke-free Hong Kong.

To carry on, the Council will continue to organize all sorts of publicity activities on tobacco control, thus people from different sectors and industries will be able to realize the hazards of smoking. At the same time, these activities will act as an encouragement for the smokers to quit smoking as soon as they can.

《香港無煙領先企業大獎》

委員會早於2004年及2006年先後舉辦了兩次表揚企業推行無煙工作間的活動，均獲得各界大小企業的踴躍參與。委員會於2011年再接再厲，舉辦《香港無煙領先企業大獎》，推廣無煙企業文化及鼓勵更多吸煙人士加入戒煙行列。

是次活動獲得有四千會員的香港總商會全力支持，藉著企業的滲透及凝聚力，在工作間推廣無煙信息，以加強商界維護社會公眾健康的重要角色，及展示其企業社會責任，同時鼓勵企業訂立無煙措施及提供戒煙輔助，讓工作間成為吸煙僱員的戒煙支援平台，對僱員、企業以及社會帶來三贏局面。

Hong Kong Smoke-free Leading Company Awards

The Council launched two award presentations for the business sector in 2004 and 2006 successively, with an aim to recognize their efforts in setting up smoke-free workplace. These campaigns gained widespread support from enterprises and SMEs from different sectors. COSH organized the “Hong Kong Smoke-free Leading Company Awards” again in 2011, to promote the smoke-free corporate culture and encourage more and more smokers to say NO to tobacco.

The campaign was fully supported by Hong Kong General Chamber of Commerce (which has four thousands corporate members). With its connections and cohesive strengths, the smoke-free message was delivered to numerous companies. The campaign also enhanced the important role of the business sector in upholding public health and performing its corporate social responsibility. The enterprises were encouraged to set up smoke-free measures and provide a support platform of smoking cessation for employees. A win-win-win situation would be achieved amongst employees, corporates and community.

食物及衛生局局長周一嶽GBS太平紳士為《香港無煙領先企業大獎》的榮譽贊助人，委員會亦特別籌組獨立評審團，成員包括委員會主席劉文文MH太平紳士、衛生署署長林秉恩太平紳士、香港總商會理事會成員袁耀全先生、亞洲金融集團總裁陳智思GBS太平紳士、香港大學公共衛生學院院長林大慶教授太平紳士及清新健康人協會主席黃龍德BBS太平紳士。

After a series of stringent assessments by the independent Judging Panel and the on-site visits conducted by the COSH Secretariat in November and December 2011 on the short-listed enterprises, the final assessment was held on 10 January 2012. The Judging Panel selected 15 companies to receive the Grand Awards, while another 15 companies received the Certificates of Merit with Special Recognition and 181 companies received the Certificates of Merit.

「加煙稅，助戒煙」立法會外集會

為有效預防兒童及青少年吸煙，並鼓勵吸煙人士戒煙，委員會努力不懈地倡議政府增加煙草稅。政府於2011至2012年度財政預算案公佈增加煙草稅41.5%，有關建議引起各界關注及討論。

2011年6月15日，立法會辯論增加煙草稅41.5%的條例草案，為呼籲立法會議員投票通過草案，委員會聯同病人互助組織聯盟、香港哮喘會及香港中文大學公共衛生及基層醫療學院研究生學會，於立法會門外舉行集會，爭取議員支持。最終議案獲得通過。

委員會主席劉文文MH太平紳士表示：「委員會很高興立法會議員通過增加煙草稅41.5%。然而，增加煙草稅後，香港煙草稅率仍未達世界衛生組織建議的最低水平，因此委員會促請政府必須增撥更多資源幫助吸煙者戒煙，及海關加強執法力度配合加稅措施。同時，政府亦需要以廣大市民健康為首要考慮，儘快訂立長遠增加煙草稅政策。」

The awarded enterprises and organizations were presented with trophies or certificates as recognition. The logo of the awards could also be used on their corporate websites and promotional materials for demonstrating their corporate social responsibility and their support to smoke-free culture.

Rally at Legislative Council for “Raising Tobacco Tax for Smoking Cessation”

To prevent smoking among youngsters and teenagers and to encourage smoking cessation, COSH has worked wholeheartedly to advocate the Government on increasing tobacco tax. The announcement of raising tobacco tax by 41.5% in the 2011/12 Budget has drawn much attention and discussion from various sectors of the public.

On 15 June 2011, the Legislative Council debated the bill on increasing tobacco tax by 41.5%. In order to urge the members of the Legislative Council to vote in favour of the bill, COSH worked in conjunction with the Alliance for Patients, the Hong Kong Asthma Society and the Postgraduate Association of the School of Public Health and Primary Care, The Chinese University of Hong Kong, to hold a rally outside the Legislative Council in order to win the support from the Council members. Finally the bill was passed.

The Chairman of COSH, Ms. Lisa LAU, MH, JP said, “COSH is so glad to know the members of the Legislative Council has passed the bill of raising tobacco tax by 41.5%. Nonetheless, after the tax increase, the tobacco tax in Hong Kong is still below the lowest standard recommended by the WHO. COSH urges the Government to allocate more resources on smoking cessation services. In responses to the increase in tobacco tax, the Hong Kong Customs and Excise Department should put more efforts in law enforcement. The Government shall place public health on the top priority and formulate long-term policies on raising tobacco tax.”

「戒煙大使」郭晉安煙害資訊短片

於2011年5月至7月，委員會與電視廣播有限公司合作，製作了5集各15秒的資訊短片，在無綫電視翡翠台及高清翡翠台播放，目的是讓大眾明白煙草的禍害。

資訊短片由「戒煙大使」郭晉安主持，內容包括講述煙草是一級致癌物，會引致各種嚴重病症，而吸煙亦會製造二手煙及三手煙，影響自己健康之餘，亦會危害其他人。郭晉安以自身的經驗勸告吸煙人士戒煙，螢幕隨即顯示戒煙熱線，方便有需要人士尋求協助。

「戒煙一定贏」一分鐘電視節目

為了讓市民大眾了解吸煙的害處及戒煙方法，委員會以短篇故事的形式，創作了5集各一分鐘的電視節目，於2011年6月在無綫電視翡翠台及高清翡翠台播放。

故事以一家人的生活片段為藍本，爺爺、叔叔及其女朋友均是吸煙者，但對吸煙的禍害只是一知半解，例如叔叔以為在家裡通風的地方吸煙便不會影響家人健康；叔叔女朋友則認為吸煙有助保持窈窕身段等，經過爸爸媽媽解釋吸煙的禍害後，各人都下定決心戒煙，家人亦大力支持。

15-second Daily Info by Smoking Cessation Ambassador Mr. KWOK Chun-on

From May 2011 to July 2011, COSH cooperated with Television Broadcasts Limited to produce short videos of 15 seconds, with 5 episodes in total. The short videos were broadcasted on TVB Jade and HD Jade which aimed at raising public awareness on the hazards of tobacco.

The Infomercials were hosted by Smoking Cessation Ambassador Mr. KWOK Chun-on. He pointed out in the videos that tobacco is classified as Group 1 Carcinogen, which leads to different kinds of severe diseases, as well as the harmful effects of second-hand smoke and third-hand smoke. KWOK Chun-on also shared his experience on smoking cessation and exhorted smokers to quit smoking. Smoking cessation hotline was also displayed to facilitate audiences to seek for assistance if needed.

“Quit to Win” 1-minute Television Programme

To let the public realize the hazards of smoking and the methods to quit, COSH produced 5 episodes of 1-minute television programme, which were broadcasted on TVB Jade and HD Jade in June 2011.

The story was based on the daily life of a family. The grandfather, the uncle and his girlfriend were smokers and did not have good understanding on smoking hazards. For example, the uncle thought that harmful effect would be reduced if he smoked at ventilated place at home; the uncle's girlfriend believed that smoking could help keep fit, etc. After the father and mother briefed them on the adverse effects of smoking, they decided to quit smoking with strong support from the family.

2011年全新宣傳短片 – 《轟轟烈烈戒一次》及《集體戒煙》

委員會近年以「戒煙」為主題，製作了一系列的宣傳短片，深受大眾歡迎。委員會再接再厲，於2011年推出兩輯全新宣傳短片，分別為《轟轟烈烈戒一次》及《集體戒煙》。宣傳短片於2011年8月1日起在香港各大電視台及電台播放。

《轟轟烈烈戒一次》的背景為一公共屋邨家庭，故事中的男主角原為吸煙人士，但在身邊的家人、學校老師、鄰居、新聞報道員及祖先等鼓勵下，在眾人面前轟轟烈烈地作出戒煙的承諾，由此證明家人及朋友的支持對戒煙人士何其重要。而《集體戒煙》則發生在朋友聚會中，帶出戒煙時友儕間互相扶持的重要性。短片透過主角的朋友，打破其吸煙的幻想，甚至身體力行一齊戒煙，帶出集體戒煙定必成功的信息。

New APIs in 2011 – “Quit Now” and “Let’s Quit Together”

In recent years, the Council produced a series of APIs under the theme of “Quit Smoking” which received wide public support. In 2011, COSH launched 2 new APIs, namely “Quit Now” and “Let’s Quit Together” which were broadcasted through all major TV and radio stations in Hong Kong since 1 August 2011.

The story of “Quit Now” API happens in a family living in public housing estates. The actor was a smoker, but with the encouragement from his relatives, teachers, neighbour, news anchor and his ancestors, he committed to quit smoking. This is to prove that support from relatives and friends is important for the smoker to quit smoking. The “Let’s Quit Together” API is to show the importance of friends’ support on smoking cessation. The story starts with the fantasy for smoking of the actor and he is brought back to the reality by his friends who encourage him to quit smoking. The API brings out the message that smokers must quit successfully if we support each other.

委員會了解戒煙人士面對的困難與挑戰，故這兩輯宣傳短片均以日常生活片段為背景，從而引起戒煙人士的共鳴。委員會希望短片能令更多吸煙人士戒煙，同時鼓勵市民支持身邊家人、朋友戒煙，共同享受無煙生活。

機構健康教育講座 – 吸煙的禍害與戒煙方法

委員會一直致力推行無煙工作間，深明無煙環境能讓員工保持活力及提升生產力，因此與各企業緊密合作，舉辦控煙健康教育講座，講解吸煙的禍害及戒煙的方法，讓員工了解無煙生活的好處及重要性。

於2011年4月至2012年3月期間，委員會走訪了23間機構，為超過1,200名員工舉辦控煙健康講座。講座內容包括煙草的禍害、二手煙及三手煙的影響、戒煙的謬誤及本港戒煙支援服務資料等。講座設有問答環節，輔以控煙宣傳短片，讓員工於輕鬆的環境下獲得控煙資訊。

COSH understands the difficulties and the challenges that smokers have to face on smoking cessation. These two APIs are based on daily life scenarios to impress the smokers. COSH aims to inspire more smokers to say NO to tobacco and encourage relatives and friends to work together with smokers to build a healthy life without cigarettes.

Health Talks for Companies – Smoking Hazards and Cessation Methods

COSH has worked wholeheartedly on promoting smoke-free workplace which can help maintain the vitality and enhance the productivity of employees. We cooperated with the companies to organize health talks on tobacco control, smoking hazards and cessation methods to help the employees better understand the benefits and importance of smoke-free life.

During the period of April 2011 and March 2012, COSH visited 23 organizations to conduct health talks on tobacco control for more than 1,200 employees. Contents included hazards of tobacco, influences of second-hand smoke and third-hand smoke, misunderstandings on smoking cessation and cessation services available in Hong Kong. There were Q & A section and broadcast of promotional videos to help audience acquire information about tobacco control under a relaxing atmosphere.

社區聯繫及推廣 Community Involvement & Promotion

《無煙社區推廣計劃》

香港吸煙與健康委員會於過去連續兩年舉辦《戒煙大贏家》活動，向全港市民宣揚戒煙信息，並於全港多個地方成功招募超過二千名吸煙人士戒煙。為使戒煙宣傳活動更「稱身」，委員會於2011年首次聯同地區組織舉辦《無煙社區推廣計劃》，藉著他們的滲透力，為吸煙人士提供更適切的戒煙推廣方法，希望吸引更多吸煙者戒煙。

Health Talks for “Smoke-Free New Generation”

COSH has worked on education on tobacco control for years. We believe that educating the next generation at an early age is an effective way in helping them to recognize the significance of a smoke-free environment. Therefore, COSH conducts health talks in primary and secondary schools every year under the theme of “Smoke-Free New Generation”. The purpose is to educate children and youngsters on smoking hazards, so that they will not have the first try and will persuade their relatives and friends to quit smoking. COSH will also organize talks in kindergartens from time to time, through which children can understand and establish the concept of “Smoking is hazardous to health” at their early ages.

During the school year 2011-2012, COSH conducted health talks in about 100 schools, reaching around 23,000 students. The contents of health talks covered the origin and types of tobacco, the hazards of smoking, second-hand and third-hand smoke, legislation and law enforcement in Hong Kong, existing smoking cessation services and the promotional tactics of tobacco industry. Apart from the latest information on tobacco control, the educators also introduced the works of COSH and showed the promotional videos of COSH. Question and answer session was included and decent souvenirs were given to students to enhance their smoke-free knowledge under a relaxing atmosphere and in an interactive way.

COSH has cooperated with local professional troupes since 1995 to conduct roadshows at primary schools. The previous performances were well received by students and teachers, which included “A Show about Smoking”, “Situational Drama”, “Smoke-free Masters”, “Smoke-free Saves the Earth”, “Smokeland Adventure”, “Smoke-free Super Show”, “Momo’s Smoke-free Castle, Smoke-free Challenge”, “Smoke-free Detective X” and “Smoke-free Superkids”. During 1995-2011, the Education Theatre Programme has contributed about 1,300 performances reaching more than 380,000 teachers and students.

The key message of tobacco control is delivered along with music, stage effects and interesting presentation. Through the performance, students will receive positive messages such as “fallacies about smoking”, “tobacco hazards”, “say NO to second-hand smoke” and understand the benefits brought by smoke-free environment. We aim to help establish a smoke-free culture and lifestyle among students at younger age.

本年度委員會與PIP劇場合作，承接上年度《無煙能量超人》的故事，創作全新互動音樂劇《無煙新宇宙》，讓孩子認識煙草商狡猾的宣傳技倆，學會拒絕吸第一口煙。委員會亦特別鳴謝林大慶教授太平紳士作此劇的專業顧問。此教育劇場共舉辦100場，超過23,000名學生及教師欣賞。

故事講述無煙能量超人閃閃鑲而不捨地追捕煙草商，煙草商為了逃避閃閃，走入宇宙中最危險的地方－黑洞。黑洞裡有一位宇宙廣告天后，擁有名為「宣傳異」的特異功能，煙草商藉著天后的力量，散播吸煙是潮流的假象。閃閃憑著無煙數碼精靈小必必的教導，成功勸服廣告天后不再為煙草商提供力量，更將所有吸煙產品變為拒煙產品。閃閃加上小朋友的決心，使出宇宙最強絕技「無煙必殺口號」，成功揭穿煙草商的真面目。隨著最後一條煙草消失於宇宙中，一個清新的「無煙新宇宙」亦隨之誕生。故事劇情緊湊，充滿互動元素，加上音響、歌舞和投影技術的配合，令學生投入其中，更容易明白維護無煙環境的重要性。

劇場的首演禮於2011年10月12日假柴灣青年廣場舉行，嘉賓包括委員會主席劉文文MH太平紳士、教育及宣傳委員會主席鄔淑賢女士、香港大學公共衛生學院院長林大慶教授太平紳士、控煙辦公室主管何理明醫生、衛生署基層醫療首席醫生馮宇琪醫生，以及委員會委員黃帆風先生MH。委員會更邀請了400多名區內的小學生及傳媒率先欣賞，反應熱烈，上台台下齊聲喊出「拒煙口號」，現場氣氛高漲。其後，劇團隨即在港、九、新界各區學校展開巡迴演出。

This year, COSH launched a brand-new interactive musical “Smoke-free Galaxy” in collaboration with PIP Theatre. The story is the sequel of “Smoke-free Superkids” launched last year. It aims to educate students on the promotional tactics of tobacco industry, and to refuse the first cigarette. Special thanks were given to Prof. LAM Tai-hing, JP for being the professional consultant of the musical. 100 performances were delivered and 23,000 students and teachers were reached.

The story was about the Smoke-free Superkids Bling Bling, who was chasing and hunting down Tobaccoman. In order to flee from Bling Bling, Tobaccoman entered the Black Hole, the most jeopardous zone in the Galaxy and met Galaxy Adv Queen who had extraordinary power on “Promotion”. With the strength of Galaxy Adv Queen, Tobaccoman spread the wrong message that smoking was a trendy act. Having been instructed by the Smoke-free fairy BiBi, Bling Bling successfully persuaded Galaxy Adv Queen to stop granting her power to Tobaccoman and changed all smoking products into anti-smoking products. With the strong determination from the audience, Bling Bling used the most powerful ultimate, “anti-smoking slogan”, to unmask the tactics of Tobaccoman. Finally, the last tobacco disappeared in the Galaxy and a fresh “Smoke-free Galaxy” was built. The performance was full of interactive elements with a blend of sound effects, singing, dancing and projection which created a favourable atmosphere for students to recognize the importance of anti-smoking.

COSH invited over 400 primary students from the district and the media to attend the premiere held at the Youth Square in Chai Wan on 12 October 2011. Honourable guests included Ms. Lisa LAU, MH, JP, COSH Chairman; Ms. Brenda WU, Chairman of Education and Publicity Committee; Prof. LAM Tai-hing, JP, Director, School of Public Health, The University of Hong Kong; Dr. Raymond Ho, Head of Tobacco Control Office; Dr. Anne Fung, Principal Medical and Health Officer (Primary Care), Department of Health and Mr. Jackson Wong, MH, COSH member. All the audience shouted out the “anti-smoking slogan” with the actors, which raised the temperature in the venue to the highest. The Education Theatre began its tours in various districts afterwards.

Smoke-free Homes and Smoke-free Teens Campaign

There were 2 categories targeting at kindergarten students and primary to junior secondary students respectively. “Smoke-free Teens – Kindergarten Children” was designed particularly for kindergarten students aiming to unleash their creativity through the colouring activity. Children would become Smoke-free Teens after inviting family members to sign on the Game Sheet and pledge for building a smoke-free home. Family members were also welcome to sign on the sheets to show their dedication on smoking cessation. 50 merit prizes of theme park tickets were awarded to winners while all participants were given a certificate of Smoke-free Teens as reward.

For “Smoke-free Teens – Primary to Junior Secondary Students”, participants should invite all family members to sign and pledge for building a smoke-free home. Smoke-free Teens could also pick up tasks under the Bronze, Silver and Gold Awards, which included inviting one current smoking family member to quit smoking and designing a suitable cessation plan for the smoker in accordance with the Smoke-free Teens Handbook. 研究項目計劃
Research Projects

香港女性吸煙及健康調查

委員會與香港大學護理學院及公共衛生學院組成研究團隊，攜手進行全港女性吸煙與健康調查，目標是了解吸煙及二手煙對女士健康造成的影響，以及探討15至65歲的吸煙女性、已戒煙或從未吸煙的女性對於吸煙及戒煙的認識、態度及行為。

研究團隊前後舉行了15個聚焦小組討論，邀請了73位不同年齡及有不同吸煙習慣的女士分享她們吸煙、不吸煙及戒煙的原因、戒煙經驗、她們對二手煙及吸煙禍害的認識，以及其對煙草價格和政府控煙政策的意見。

Smoking and Health Survey in Hong Kong Women

COSH commissioned the School of Nursing and School of Public Health of The University of Hong Kong to formulate a research team to conduct a study about female smokers and health. The study is to understand the harmful effects of smoking and passive smoking to female, as well as the knowledge, attitude and behaviour of female smokers, ex-smokers and non-smokers aged 15 to 65.

15 focus group discussions were conducted and invited 73 women at different ages and with different smoking habits to share their reasons for smoking, non-smoking and quitting, experiences of smoking cessation, knowledge on health risks of smoking and passive smoking, as well as opinions on cigarette prices and tobacco control policies.

根據聚焦小組的討論及分析，研究團隊設計了相關的電話調查問卷，並交由香港大學民意調查中心進行電話訪問，共訪問了3,044位女性，包括503位現行吸煙女性、509位已戒煙女性及2,032位非吸煙女性。

研究調查結果重點如下：

- 現行吸煙及已戒煙女性首次吸煙平均年齡分別為17.0 (±5.0)及17.3 (±7.1)歲。現行吸煙女士平均每天吸煙9.5 (±7.0)支，而已戒煙女性過往每天吸煙平均數為8.2 (±17.5)支。至於過往曾戒煙次數，現行吸煙女士平均有2.8 (±3.4)次，已戒煙女性有2.4 (±3.1)次。約六成五吸煙人士為每日吸煙人士，近三分二女性的尼古丁依賴程度為輕度；
- 在514位曾嘗試戒煙女士中，15.4%吸煙女性表示「生活壓力」為再次吸煙的主要原因，其他原因分別為「身邊有人吸煙」(14.8%)、「渴望」(14.2%)及「不夠決心」(12.5%)；
- 約43.7%吸煙人士未有意圖戒煙，當中53%曾嘗試戒煙。14.9%表示希望在未來30天內開始或嘗試戒煙；
- 29.4%吸煙人士對何時開始戒煙未能訂下日期，近七成半人士曾嘗試戒煙。只有4.1%及2.6%吸煙人士有意在半年內或半年後開始戒煙；
- 非吸煙人士表示她們不吸煙的原因為「知道吸煙危害健康」(49.9%)、「厭惡的味道」(42.2%)及「不喜歡吸煙」(17.4%)；

Based on the findings from focus groups, the research team constructed the survey instruments for telephone survey on females with different smoking habits. The telephone survey was conducted by Public Opinion Programme of The University of Hong Kong which had sampled 3,044 females for this study, including 503 current smokers, 509 ex-smokers and 2,032 non-smokers.

Key analysis were summarized as follows:

- The mean ages of first smoking attempt for smokers and ex-smokers were 17.0 (±5.0) and 17.3 (±7.1) years respectively. On average, smokers consumed 9.5 (±7.0) cigarettes per day, whilst ex-smokers consumed 8.2 (±17.5) cigarettes previously. Smokers and ex-smokers had made, on average, 2.8 (±3.4) and 2.4 (±3.1) attempts to quit respectively. Nearly 65% of smokers were daily smokers and nearly 66% had mild nicotine dependence;
- Among the 514 smokers who attempted to quit before, over 15.4% of smokers indicated that 'pressure in life' was the reason for relapse in smoking, followed by 'people around me smoke' (14.8%), 'craving' (14.2%) and 'insufficient determination' (12.5%);
- Among 43.7% of smokers who do not have intention to quit smoking, 53.0% had quit attempt before. In contrast, 14.9% of smokers reported to have started to quit or will try to quit smoking within 30 days;
- 29.4% of smokers had reported to have intention to quit but the timeline is not decided, 75.1% had quit attempt before. Only 4.1% and 2.6% of smokers had the intention to quit smoking within 6 months and after 6 months respectively;
- The most frequently reported reason for not smoking among non-smokers was 'knowing that smoking is bad for health' (49.9%), followed by 'disgusting smell' (42.2%) and 'do not like smoking' (17.4%);

- 相比已戒煙及非吸煙女士，現行吸煙女性在家中接觸較多二手煙，她們接觸二手煙高達16年；
- 大部分受訪者知道尼古丁令人上癮，以及吸煙及二手煙危害健康，但更多吸煙人士對吸煙存有一些謬誤，包括「戒煙對健康的負面影響」，「吸煙幾十年戒煙都太遲」等。她們都不太知道三手煙；
- 大部分吸煙人士認同吸煙有助減壓及管理情緒，但只有一半戒煙人士及四分之一非吸煙人士支持吸煙的「效果」；
- 女性吸煙跟其他危害健康的生活習慣有密切關係，包括飲酒、少運動及使用口服避孕藥；
- 社會應投放更多控煙資源以協助更多年青、單身及在職吸煙女性戒煙。香港應進行更多教育項目以預防年青人因為朋輩壓力及好奇而開始吸煙，並提升大眾對吸煙謬誤及誤解的認知，同時掌握現時香港的戒煙服務。
- Smokers expressed that they were exposed to more secondhand smoke at home than ex-smokers and non-smokers. They have been exposed to secondhand smoke for 16 years or more;
- Majority of respondents knew that nicotine can cause addiction and health hazards of smoking and secondhand smoke but more smokers had smoking myths, including the "negative consequences after quitting" and "it is too late to quit smoking if one has been smoking for decades". Majority of them did not know what third hand smoke was;
- Majority of smokers agreed that smoking can reduce stress and control emotion but only half of the ex-smokers and one-fourth of non-smokers had such attitude;
- Smoking was associated with other risk behaviours, such as alcohol consumption, lack of exercises and use of oral contraceptives;
- More efforts and resources are needed to combat against smoking among young, single and working women in Hong Kong. More education programmes should be implemented to prevent youngsters from smoking due to peer influence and curiosity. In addition, more programmes should be launched to raise public awareness on smoking myths and misconception as well as existing smoking cessation services in Hong Kong.

研究團隊將進一步整理及分析電話調查數據，以協助委員會策劃更多適切的計劃，有效地鼓勵香港市民，尤其是女性遠離煙草。

增加煙草稅對香港成年吸煙人士的行為及戒煙意欲的影響

香港財政司司長於2011年2月建議增加煙草稅41.5%後，捲煙零售價即時由平均每包港幣39元上升至港幣50元。為進一步掌握增加煙草稅對吸煙人士的影響，委員會聯同香港中文大學公共衛生及基層學院進行電話調查，研究增加煙草稅對吸煙人士在吸煙行為及認知上，以及戒煙意欲是否有影響。

是次電話抽樣調查於增加煙草稅九個月後進行，成功訪問502位18至65歲現行吸煙人士，他們表示在政府增加煙草稅後令他們減少吸煙，每周平均減少吸食16支。節省金錢、改善健康以及減少家人掛慮是最普遍認為的戒煙好處。是次調查結果重點如下：

The research team would consolidate their results from telephone survey for further analysis in the near future so as to devise effective programmes for COSH to encourage smoking cessation, especially among females in Hong Kong.

“Impacts of the Increase in Cigarette Tax on Smoking Behaviours and Intention to Quit Smoking Among Adult Smokers in Hong Kong”

For the interest of public health, the Financial Secretary proposed to increase the tobacco tax by 41.5% in the 2011-12 Budget. The average retail price of cigarettes was increased from HK\$39/pack to HK\$50/pack. In order to understand the impacts of raising tobacco tax on smokers, COSH and School of Public Health and Primary Care of The Chinese University of Hong Kong conducted a telephone survey to investigate the behavioural and cognitive changes of smokers as well as their perceptions on smoking cessation.

The randomized telephone survey was conducted nine months after raising tobacco tax which successfully interviewed 502 current smokers aged 18 to 65 years-old. The respondents expressed that, after raising tobacco tax, they had reduced cigarette consumption by 16 sticks per week. Saving money, improving health and relieving worry of family members were the most commonly perceived benefits of smoking cessation. Key findings of the study were summarized as follows:

- 被訪對象表示因增加煙草稅而較多與家人討論戒煙及其好處；
- 增加煙草稅並沒有驅使吸煙人士使用更多未完稅或非法煙草產品；
- 對於煙草零售價會否推動戒煙，三分之一及一半吸煙人士分別表示，如每包捲煙的零售價升至港幣80元及100元，他們會即時戒煙；
- The respondents reflected that desirable behavioral and cognitive changes on smokers were detected, such as increase in frequency of discussion with family members about smoking cessation and perceived benefits of smoking cessation;
- There was no evidence that increase in tax had led smokers to buy more tax-evaded cigarettes;
- One-third and half of respondents expressed that they would definitely quit smoking if the retail price of a pack of cigarettes was raised to HK\$80 and HK\$100 respectively;

- 61%受訪者表示有留意現時香港提供的戒煙服務，他們未有使用戒煙服務的主要原因是「未有想過需要尋求戒煙協助」(44%)；「沒有計劃戒煙」(36%)；「不知道」(12.7%)及「不方便」(7.2%)；
- 建議將來倡議增加煙草稅時，須配合社會營銷計劃，以行為健康理論、家人的參與及社區內廣泛的戒煙服務來鼓勵戒煙。
- 61% of respondents were aware of the cessation services in Hong Kong. Their major reasons for not utilizing the cessation services were: “haven’t thought of needing someone to help quitting” (44%); “No plan to quit” (36%); “don’t know” (12.7%) and “inconvenient” (7.2%);
- It was recommended that further advocacy on raising tobacco tax should be accompanied by social marketing campaigns to promote smoking cessation with coverage on behavioural health theories, involvement of smokers’ family members as well as the prevalence of smoking cessation services in the community.

《無煙少年獎勵計劃》成效研究

《無煙少年獎勵計劃》成功招募了7,300位小學及初中學生成為無煙先鋒，當中2,500多位同學更銳意設計戒煙計劃書協助吸煙家人戒煙。香港大學護理學院隨機抽樣部分獲提名的家人，為他們提供戒煙輔導跟進服務，並進行計劃檢討。

Evaluation Study on Smoke-free Homes and Smoke-free Teens Campaign

More than 7,300 primary and secondary school students participated in the “Smoke-free Homes and Smoke-free Teens Campaign”, among which more than 2,500 students had indicated their determination and designed an action plan to help their smoking family members to quit smoking. Some of these nominated smokers were randomly sampled to receive smoking cessation intervention services from School of Nursing, The University of Hong Kong, who assisted in project evaluation as well.

經過初步電話接觸，256位吸煙人士願意參加戒煙輔導跟進，當中126位獲得免費尼古丁補充劑及三節電話戒煙輔導跟進，另外130位則被抽樣安排接受三節電話戒煙輔導跟進。護理學院亦為所有參加者提供自助戒煙手冊及六個月戒煙輔導跟進服務。

護理學院已完成六個月戒煙輔導跟進服務，並正進行整理及研究結果數據分析以編纂研究報告。

After initial telephone contacts with all the nominated smokers, 256 smokers confirmed to join the research study. 126 of them received free Nicotine replacement therapy (NRT) and 3 sessions of telephone counseling whereas 130 of them had been assigned to receive 3 sessions of counselling. All of them were provided with Smoking Cessation Guidebook and 6-month follow up by School of Nursing.

The School of Nursing completed the 6-month follow up for the participants and was finalizing the research findings for the final report.

AUDITOR'S RESPONSIBILITY (continued)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant of the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing the opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the council members, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

OPINION

In our opinion the financial statements give a true and fair view of the state of the Council's affairs as at 31st March 2012 and of its surplus and cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards.

本會辦公地址為香港灣仔皇后大道東一百八十三號合和中心四十四樓四四零二至四四零三室。

2. 主要會計政策

(a) 編製基準

本帳目已按照香港會計師公會頒佈所有適用的香港財務報告準則（其統稱已包括個別適用的香港財務報告準則、香港會計準則及詮釋）及香港公認會計準則編製。本帳目以歷史成本慣例編製。

香港會計師公會已頒佈若干於本年度生效之全新及經修訂香港財務報告準則。本會採用下列與本會運作相關的全新／經修訂之香港財務報告準則：

香港會計準則第24號（經修訂）：關連方披露
香港會計準則第24號（經修訂）澄清並簡化了關連方的定義。

二零一零年香港財務報告準則改善方案

二零一零年香港財務報告準則改善方案採納若干對香港財務報告準則7號「金融工具：披露」的披露修訂。

1. General

The Hong Kong Council on Smoking and Health (“the Council”) is an organization incorporated under Hong Kong Council on Smoking and Health Ordinance on 1st October 1987.

The office address of the Council is at Unit 4402-03, 44th Floor, Hopewell Centre, 183 Queen’s Road East, Wanchai, Hong Kong.

2. Principal accounting policies

(a) Basis of preparation

The accounts have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards (“HKFRSs”), which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards (“HKASs”) and Interpretations issued by the Hong Kong Institute of Certificate Public Accountants (“HKICPA”), and accounting principles generally accepted in Hong Kong. The accounts have been prepared under the historical cost convention.

The HKICPA has issued certain new and revised HKFRSs that are first effective for the current accounting year of the Council. The Council has adopted the following new/revised HKFRSs which are relevant to its operations:

HKAS 24 (Revised) “Related Party Disclosures”
HKAS 24 (Revised) clarified and simplified the definition of related parties.

Improvements to HKFRSs (2010)

Improvements to HKFRSs (2010) omnibus standard introduces a number of amendments to the disclosure requirements in HKFRS 7 “Financial Instruments: Disclosures”.

2. 主要會計政策（續）

(a) 編製基準（續）

採用此等財務報告準則對本帳目並沒有財務影響，亦沒有導致本會的會計政策有重大改變。

此外，本會並沒有提早採用本年度尚未生效之香港財務報告準則。本會管理層預計採用該等未生效的財務報告準則對本會帳目影響並不重大。

在編製符合香港財務報告準則之財務報表時，管理層需作出判斷、估計和假設，此等對會計政策之應用，以及對資產、負債、收入和支出之報告數額構成影響。這些估計和相關假設是根據以往經驗和管理層因應當時情況認為合理之多項其他因素作出的，其結果構成了管理層在無法依循其他途徑及時得知資產與負債之帳面值時所作出判斷之基礎。實際結果可能有別於估計數額。

管理層會不斷審閱各項估計和相關假設。如果會計估計之修訂只是影響某一期間，其影響便會在該期間內確認；如果修訂對當前和未來期間均有影響，則在作出修訂之期間和未來期間確認。

(b) 收入與支出

除香港特別行政區政府就指定目的所提供的撥款外，本會之一切經常性收入及支出會記入盈餘或虧損內。盈餘會退回衛生署。

2. Principal accounting policies (continued)

(a) Basis of preparation (continued)

The adoption of these HKFRSs has no financial effect on these accounts, and did not result in significant changes to the Council’s accounting policies.

In addition, the Council has not early adopted new and revised HKFRSs that are not yet effective for the current accounting year. The management of the Council anticipates that the adoption of them is unlikely to have a significant impact on the Council’s accounts.

The preparation of the financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on a ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

(b) Income and expenditure

With the exception of grants received from the Government of the Hong Kong Special Administrative Region for specified purposes, all of the Council’s recurrent income and expenditure are dealt with in surplus or deficit. Any surplus is refundable to the Department of Health.

2. 主要會計政策（續）

(c) 收入確認

- (i) 政府津貼是根據期間本會已確認為支出的相關成本，有系統地確認於盈餘或虧損內。津貼及相關成本是分別列示於帳目內。

- (ii) 銀行利息收入按實際利率法累計。

(d) 外幣折算

本會以港元為功能及列帳貨幣。本年度的外幣交易均以交易當日的外幣匯率換算為港元。以外幣為單位的貨幣性資產及負債則按年結日的外幣匯率換算為港元。匯兌盈餘會記入盈餘或虧損內。

(e) 減值損失

於每個年結日，若有跡象顯示資產出現減值情況，則需要估計該資產的可收回價值。可收回價值為其公允價值減出售費用及使用價值兩者中的較高者。若可收回價值低於帳面值，該資產須減值至其可收回價值，而減值虧損則記入盈餘或虧損內。倘用以釐定可收回價值的估計出現有利變動，則撥回減值虧損。惟撥回減值虧損不得導致資產帳面值超過如無過往年度確認減值虧損時所應釐定之資產帳面值。撥回減值虧損於撥回年度計入盈餘及虧損內。

2. Principal accounting policies (continued)

(c) Revenue recognition

- (i) Government subvention is recognized in surplus or deficit on a systematic basis over the periods in which the Council recognizes the related costs as expenses. The subvention and related costs are separately disclosed in the accounts.

- (ii) Bank interest income is recognized as it accrues using the effective interest method.

(d) Foreign currencies translation

The Council's functional currency and presentation currency are Hong Kong dollars. Transactions arising in foreign currencies during the year are converted at exchange rates approximating to those ruling at transaction dates. Monetary assets and liabilities denominated in foreign currencies at year end are translated at rates of exchange approximating to those ruling at balance sheet date. All exchange differences are dealt with in surplus or deficit.

(e) Impairment losses

At each balance sheet date, where there is any indication that an asset is impaired, the recoverable amount of the asset should be estimated. The recoverable amount of an asset is the higher of its fair value less costs to sell and value in use. If the recoverable amount is less than the carrying amount, an impairment loss is recognized to reduce the asset to its recoverable amount. Such impairment losses are recognized in surplus or deficit. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. A reversal of an impairment loss should not result in the asset's carrying amount exceeding that which would have been determined has no impairment loss been recognized in prior years. Reversals of impairment losses are credited to surplus or deficit in the year in which the reversals are recognized.

2. 主要會計政策（續）

(f) 物業、機器及設備

物業、機器及設備以成本價減已收或可收的資助、累積折舊及累積減值損失列帳。

折舊計算方法乃將物業、機器及設備以成本價減已收或可收的資助及累積減值損失，按其估計使用年期，以直線攤銷方法，依照下列比率按年撇除：

租賃物業改良工程	尚餘租賃年期
傢俬及裝置	每年百分之二十五
辦公室設備	每年百分之二十五

(g) 出售物業、機器及設備

出售物業、機器及設備之盈餘按所得款與該資產帳面值的差額釐定，並記入盈餘或虧損內。

(h) 經營租賃

經營租賃乃擁有資產的風險及回報大致全歸出租人之租賃。經營租賃作出之付款，於租賃期內以直線法記入盈餘或虧損內。

(i) 按金

按金首先以公允價值確認，其後以攤銷成本列帳，若折現影響不大時，則以成本列帳。

(j) 應付費用

應付費用首先以公允價值確認，其後以攤銷成本列帳，若折現影響不大時，則以成本列帳。

2. Principal accounting policies (continued)

(f) Property, plant and equipment

Property, plant and equipment are stated at historical cost less any subsidies received or receivable, any accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated to write off the cost of property, plant and equipment less subsidies received or receivable and accumulated impairment losses over their estimated useful lives using a straight-line basis at the following rates:

Leasehold improvements	over unexpired period of lease
Furniture and fixtures	25 percent per annum
Office equipment	25 percent per annum

(g) Disposal of property, plant and equipment

The gain or loss arising from disposal of property, plant and equipment is the difference between the net sale proceeds and the carrying amount of the relevant assets, and is recognized in surplus or deficit.

(h) Assets held under operating leases

Leases where substantially all the risks and rewards of ownership of assets remain with the lessor are accounted for as operating leases. Payments made under operating leases are charged to surplus or deficit on a straight-line basis over the lease periods.

(i) Deposits

Deposits are initially recognized at fair value and thereafter stated at amortized cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

(j) Accrued charges

Accrued charges are initially recognized at fair value and thereafter stated at amortized cost unless the effect of discounting would be immaterial, in which case they are stated at cost.

2. 主要會計政策（續）

5. 退回衛生署的經調整盈餘

由於衛生署並不承認僱員年假準備為費用而只在年假補償付出時承認，及視物業、機器及設備的添置為購入年度的費用而不承認撇銷及折舊。因此，在計算可退回衛生署的盈餘時，不包括此年假補償準備／準備回撥、物業、機器及設備的撇銷及折舊，而扣除物業、機器及設備的添置。

6. 將退回衛生署的累積盈餘

本會管理層認為截至一九九八年三月三十一日累積盈餘將會於衛生署要求時退回。

(c) 合理價值

於二零一二年及二零一一年三月三十一日所有金融資產及金融負債之價值與其合理價值並無重大差異。合理價值乃按照日後現金流量以現時利率折算現值而估計。
